Park City Mining Notes.

(Park Record.)

SHAREHOLDERS OF WABASH MEET

Old Directors Are Re-elected and Reports Submitted.

MUCH WORK COMPLETED

FIVE VEINS AND SOME RICH ORE OPENED UP.

At the meeting of the Wabash Mining company, held yesterday morning, more than 128,600 shares of stock—the bulk of the outstanding issue—was represented, and voted for the change sought to be made in the articles of incorporation and for the retention of the old board of directors which, when organized at the close of the meeting, stood as follows: Nicholas Treweck, resident and manager; J. R. Barnes of Kaysville, vice president; W. Mont M. Daugherty and William Hatfield. The meeting was a harmonious on and, in addition to the subjoined report, which was submitted by President Treweck, many questions of shareholders were orally answerd. The report, which covers the period from Sept. I. 1903, to Aug. 31, 1905, dealt with all that the management felt the public entitled to at this time, and was as follows:

"Since my last report to the stockholders we have acquired by purchase, bonds and leases upwards of 185 acres of additional ground, aggregating from cast to west near 6,000 feet in length. The original Wabash claims comprise shout thirty-five acres, so that the company now controls about 220 acres. The purchase-se, leases and bonds have been secured on very reasonable terms; the aggregate cost is near \$82,000, and we have paid near \$11,000.

Development and Results.

"In the development of the property we have found five different veins: so far three of them have shown more or less ore. For fourteen months prior July 1, 1965, our time and energies were devoted to the running of a long line of cross-cut work in energy line of cross-cut work in a central south southeast direction, this law in the company now controls about 220 acres, the purchase, leases and bonds have been secured on very reasonable terms; the aggregate cost is near \$82,000, and we have paid near \$11,000.

Development and Results.

"In the development of the property we have found five different veins: so far three of them have shown more or less ore. For fourteen months prior July 1, 1965, our time and energies were devoted to the running of l

oplace the mine on a paying basis still buying and Tonopah people are all builtsh on it. Next week should show better trading market and higher prices all around,

What the Work Cost.

Up to Sept. 1, 1903, there had bee fts sunk and drifts run approxi-tely 5,597 feet at a cost aggregating 135.13. Since that time we have ne additional work aggregating 6.059

he future development of the mine." Government Geologist Making Second

any, including the mines, smerter and verything which goes with it. will ow be operated by an organization chich is to be known as the MacBeth case syndicate. Frank M. Lealand as been installed as manager of the ntire proposition, and all the leases twen and to be given on portions of he property will be executed and poked after by him.

"It has been demonstrated by Mr. caland during the past month or two nat the property can be made to pay andsomely through the leasing system. Not only will the miners themelves make money, but the syndicate xpects to do well also. There are ow about sixty men employed at the sines, leasing. The number will be ventually increased to anywhere from 10 to 200 men, and the smelter will e run by Mr. Lealand as often as ecessary to handle the ores that the ascers will supply. During the winascers will supply the supply there are the supplies and the states that the boys are now in shape to keep things moving all the time, though the roads should be blocked with snow till the first of next. time, though the roads should be users will supply. During the wing, which is now opening up there, ork will be largely confined to the tter developed portion of the mine, it in the spring there will be a ance for almost any number of men make money by mining right at e surface and in the least developed ritions of the lode. The lode is lime.

inspection of Famous Mine.

When Professor S. F. Emmons, the noted government geologist, left the city Friday night for Los Angeles it was with the avowed fittention of stopping off at Milford and going to Newhouse for the purpose of making another round-up of the Caetus property. Before the mine was developed to the white Knob Copper company at dackay, Ida. Last Saturday, upon heir arrival at camp, General Manger Brevoort formally turned over he properties to Mr. MacBeth, in compliance with the terms of a longerm lease and bond that was exempted in favor of the latter on the 7th of the month, brief reference to thich was made in this department everal days ago.

"Yes," said Mr. MacBeth yesterday, everything has been fixed up, and the coperties of the White Knob comany, including the mines, smelter and cerything which goes with it.

FROM SCOTTISH CHIEF.

ortions of the lode. The lode is lime and the ore makes in shoots and kideys which produce anywhere from to thousands of tons of rock carving from 5 to 15 per cent copper and good values in gold and silver as ell.

"The old company went on the rocks by trying to produce too large a tonage. Everything was broken and sent of the smelter when, if operations had cen confined to getting out the better grades of material and being connection with the sale of 21,708 where the sale of 21,708 where so stock for \$11,896.51. While there was a little trading in some of the other stocks. Columbus Consolidated, as usual, monopolized attention. It was started at \$2.08 and dropped below the \$2 mark here fore the reaction, which began in the afternoon, started. When the day closed it had sold up to \$2.12% cash, and for \$2.18, buyer sixty. In all more than 4,008 shares changed hands. Eagle & Blue Bell was strong at \$1.12% Grand Central sold at \$3, and May Day moved up to \$4.00 other respects the market showed little

SHARP RISE IN

ment in Foreign Markets.

FULL FACE OF FINE ORE.

About the happiest man in town yesterday was W. J. Burnham, manager of the Southern Pacific company's properties north of Ogden. Friday night the force engaged in running the new tunnel broke into a full face of ore at a distance of 105 feet from the tunnel's mouth and, while no assays have yet been made, it is calculated the mass will easily average 15 per cent in the red metal with a probability of its going in the neighborhood of \$10 prospect of Russian affairs. A brisk rally of its going in the neighborhood of \$10 in gold and some little silver. Saturday the tunnel was all in a glittering in Russian imperial 4s was the best defi-nite indication of this feeling. The price

uncertainty until the strong rally at the last.

The lack of any engagement of gold for export was made something of to rally speculative sentiment, although the downward movement of exchange away from the gold export point was quite clearly due to the advance in the money market. Time money was also firmer and quotably higher. It is believed that the principal factor in the flurry in call money was the calling of loans by bankers having in charge the recent Japanese loan flotation. It is understood that Nov. I is the date set for turning over the proceeds of that loan to the custody of the Japanese finance agent, and that today's calling of loans was in preparation for that operation.

There are other large requirements to though it looks as though the vein must have suddenly widened out. But it doesn't much matter. Just as long as the ore is there and it is good, I don't see that we need to worry."

George Wilson came in from the Nevada-Superior company's properties in Humboldt county, Nevada, yesterday morning, to remain until after election day. He reports that Superintendent J. M. Harrington now has the campaign of development well in hand and that he will make a fine record at the mine during the winter months.

the mine during the winter months. Just at present he is compelled to con-fine himself to drifting both ways in the vein on the 125-foot level, because he is without the necessary lagging to continue sinking in the shaft. It is so hard to get material delivered by the railway companies that incidents of railway companies that incidents of this kind are common.

The mine itself, Mr. Wilson says, is looking better with every shift's work performed, and fine ore is being encountered, though at no point in the workings has the hanging wall yet been disclosed. When the north and south drifts have been extended some distance cross-cuts for the hanging wall side will be run to show what conditions are on that side.

	mine is completed, a large increase in the working force will be made, and new life will be instilled into the town. Mining Notes. Three cars of ore from Alta, two from Bingham, one from Tintic and one from Stockton, were reported at the Pioneer sampler yesterday morning. The Taylor & Brunton sampling works yesterday reported the receipt of fifteen cars of ore from Tintic, nine from Bingham, five from Idaho, five from Nevada and one from Milford. Last week's shipments from Park City included 1.690,340 sounds of ore and concentrates from the Balver King, 1,250,000 pounds from the Dalv West and 69,000 pounds from the Dalv West and 69,000 pounds from the Balver King, 1,250,000 pounds from the Kearns-Keith property, a total of 2,940,349 pounds. Six inches of snow was reported at Park City yesterday noon, and it was still falling. At the head of Big Cottonwood it had covered the ground to a depth of a foot, and, while no direct report was to be had, it is safe to say that Alta got fully as much. Kingman (Arizona) Miner: Colonel H. G. Heffron visited the Union Pass section this week and made an examination of minimum property. Mines of that country are looking well and it is a question of but a short time until they are in the hands at capital. Newton Dunyon, under whose experienced supervision the property of the Little Bell company, at Park City, is being developed into a bonanza mine, came down from camp Sunday evening. He reports the recently encountered ore bodies to be improving with every shift's work performed. Woodriver Times: E. W. Packard, E. M., arrived today from Salt Lake, after having been compelled to stop in Shoshono over night. This, said Mr. Packard, is his usual experience. Try as he will he cannot make the trip between Salt Lake and lialley in less than two nights and a day, if he could come up in twenty-four hours	Mining Notes. Mining Notes. Mining Notes. Three cars of ore from Alta, two from Bingham, one from Tintic and one from Stockton, were reported at the Pioneer sampler yesterday morning. The Taylor & Brunton sampling works yesterday reported the receipt of fifteen cars of ore from Tintic, nine from Blugham, five from Idaho, five from Nevada and one irom Milford. Last week's shipments from Park City included 1,59,340 sounds of ore and concentrates from the Silver King 1,230,060 pounds from the Daly West and 6,000 pounds from the Bally West and 6,000 pounds from the Bally West and 6,000 pounds from the Bally West and 6,000 pounds from the Daly West and 6,000 pounds from the Bally Comment of the City yesterday noon, and it was still falling. NOTICE IS HEREBY GIVEN THAT

That the board of equalization and review appointed by the city council for that purpose will meet at the office of the city recorder, room 160 city and county building on Monday, November 6th, 1905, and continue in session until Friday, November 10th, 1905, between the hours of 3:39 and 4:39 p. m. and will hear and consider any objections and make correction of any tax which said board may deem unequal or unjust.

That during said time, between the hours of 9 a. m. and 5 p. m. said list will be open to public inspection at the office of the company as corporation of the city recorder, room 100 city and county building. Salf Lake City, Utah.

By order of the city council, dated October 23d, 1905.

City Recorder.

Sewer extension No. 165.

Notice.

Notice Is HEREBY GIVEN THAT.

That the amount of the capital stock of the said corporation shall be one million dollars, which shall be divided into one million shares of the face or par value of one (\$1.00) dollar each.

JAMES WHITTAKER.

President Southern Pacific Gold & Copper Mining & Milling Company.

Assessment No. 14.

LOWER MAMMOTH MINING COMpany. Principal office, room 516 Dooly block, Salt Lake City, Utah. Notice is hereby given that at a meeting of the directors held on the 21st day of October, 1965, an assessment of 5 cents per share, being assessment No. 14, was levied upon the capital stock of the corporation, payable immediately to A. Reeves, secretary of the company, at his office, 516 Dooly block. Salt Lake City, Utah.

Any stock upon which this assessment may remain unpaid on Thursday, Nov. 23, 1965, will be delinquent and advertised for sale at public auction; and, unless payment is made before, so many shares of each parcel of such stock as may be necessary will be sold on the 12th day of December, 1905, at 2:30 o'clock p. m. of said day, to pay the delinquent assessment thereon, together with the cost of advertising and expense of sale.

A. REEVES, Secy.

516 Dooly Block, Salt Lake City, Utah. First publication, Oct. 22, 1965.

Notice is Herrer Given that the assessment of the tax leyled by the city council of Salt Lake City, Utah, by ordinance passed October Sth. 1865, upon the property abutting upon the cast 149.6 feet of lot 3 and all of lots 1 and 2 block 56, plan "D."
